DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 21, 2010 has been entered.

Information Disclosure Statement

The information disclosure statement filed October 28, 2010 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. Particularly, cite numbers B48 and C91 were not provided. Further, cite numbers B5, B6, C5, C36, and C66 were not considered because they were not in English.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Applicant's amendments to the claims and arguments filed October 27, 2010 has been fully considered. In light of the Applicant's amendments, arguments and unexpected results submitted in the specification, claims 1, 2, 4, 6, 7, 9, 11-15 and 33-34 are allowed and renumbered to claims 1-13.

In light of the applicant's arguments and amendments to the claims being persuasive, the 35 U.S.C. 103(a) rejection of claims 1-7, 9 and 11-15 over Ramirez in view of Todd, Jr. et al. is withdrawn.

The following is an examiner's statement of reasons for allowance: The claims 1, 2, 4, 6, 7, 9, 11-15 and 33-34 are drawn to a composition comprising reduced isoalpha acid and methylxanthine in a synergistic ratio to treat inflammation. There is no prior art disclosing the applicant's composition in a synergistic ratio as claimed. The closest art is Ramirez (US 2002/0102345 A1) in view of Todd, Jr. et al. (US 5,041,300). Ramirez teaches a beverage composition comprising beer and caffeine (see page 2, paragraph 29, line 3; page 6, paragraphs 85-91; and claims 1 and 13). Ramirez does not teach a reduced isoalpha acid or a synergistic ratio having a combination index of less than 1. Todd, Jr. et al. teach a hop derived flavor such as dihydroisohumulone for post-fermentation flavoring of beer to provide an objectionable-aroma-forming hop flavor (see column 2, lines 25-39; column 6, lines 35-40; and claim 4). The present claims require

a synergistic ratio having a combination index of less than 1, and the specification demonstrates that the claimed combination provides a synergistic anti-inflammatory effect (see table 6 and 7 for example). There is no art teaching that the specific combination can be used for the treatment of inflammation, nor the amounts. Thus, due to the unexpected results the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kendra D. Carter whose telephone number is (571) 272-9034. The examiner can normally be reached on 8:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan can be reached on (571) 272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
